

Physician's Warranty of Vaccine Safety

I (Physician's name, degree) _____, _____ am a physician licensed to practice medicine in the State of _____. My State license number is _____, and my DEA number is _____. My medical specialty is _____

I have a thorough understanding of the risks and benefits of all the medications that I prescribe for or administer to my patients. In the case of (Patient's name) _____, age _____, whom I have examined, I find that certain risk factors exist that justify the recommended vaccinations. The following is a list of said risk factors and the vaccinations that will protect against them:

Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____
Risk Factor _____
Vaccination _____

I am aware that vaccines typically contain many of the following fillers:

- * aluminum hydroxide
- * aluminum phosphate
- * ammonium sulfate
- * amphotericin B
- * animal tissues: pig blood, horse blood, rabbit brain,
- * dog kidney, monkey kidney,
- * chick embryo, chicken egg, duck egg
- * calf (bovine) serum
- * betapropiolactone
- * fetal bovine serum
- * formaldehyde
- * formalin
- * gelatin
- * glycerol
- * human diploid cells (originating from human aborted fetal tissue)
- * hydrolyzed gelatin
- * mercury thimerosal (thimerosal, Merthiolate(r))
- * monosodium glutamate (MSG)
- * neomycin
- * neomycin sulfate
- * phenol red indicator
- * phenoxyethanol (antifreeze)
- * potassium diphosphate
- * potassium monophosphate
- * polymyxin B

- * polysorbate 20
- * polysorbate 80
- * porcine (pig) pancreatic hydrolysate of casein
- * residual MRC5 proteins
- * sorbitol
- * tri(n)butylphosphate,
- * VERO cells, a continuous line of monkey kidney cells, and
- * washed sheep red blood

and, hereby, warrant that these ingredients are safe for injection into the body of my patient. I have researched reports to the contrary, such as reports that mercury thimerosal causes severe neurological and immunological damage, and find that they are not credible.

I am aware that some vaccines have been found to have been contaminated with Simian Virus 40 (SV 40) and that SV 40 is causally linked by some researchers to non-Hodgkin's lymphoma and mesotheliomas in humans as well as in experimental animals. I hereby warrant that the vaccines I employ in my practice do not contain SV 40 or any other live viruses. (Alternately, I hereby warrant that said SV-40 virus or other viruses pose no substantive risk to my patient.)

I hereby warrant that the vaccines I am recommending for the care of (Patient's name) _____ do not contain any tissue from aborted human babies (also known as "fetuses").

In order to protect my patient's well being, I have taken the following steps to guarantee that the vaccines I will use will contain no damaging contaminants.

STEPS TAKEN: _____

I have personally investigated the reports made to the VAERS (Vaccine Adverse Event Reporting System) and state that it is my professional opinion that the vaccines I am recommending are safe for administration to a child under the age of 5 years.

The bases for my opinion are itemized on Exhibit A, attached hereto, -- "Physician's Bases for Professional Opinion of Vaccine Safety." (Please itemize each recommended vaccine separately along with the bases for arriving at the conclusion that the vaccine is safe for administration to a child under the age of 5 years.)

The professional journal articles I have relied upon in the issuance of this Physician's Warranty of Vaccine Safety are itemized on Exhibit B , attached hereto, -- "Scientific Articles in Support of Physician's Warranty of Vaccine Safety."

The professional journal articles that I have read which contain opinions adverse to my opinion are itemized on Exhibit C , attached hereto, -- "Scientific Articles Contrary to Physician's Opinion of Vaccine Safety"

The reasons for my determining that the articles in Exhibit C were invalid are delineated in Attachment D , attached hereto, -- "Physician's Reasons for Determining the Invalidity of Adverse Scientific Opinions."
